

## Course Instructor

Dr. Jeri A. Logemann is the Ralph and Jean Sundin Professor of Communication Sciences and Disorders at Northwestern University, Evanston, Illinois, and Professor of Otolaryngology and Maxillofacial Surgery and Neurology at Northwestern University Medical School, Chicago, Illinois. She directs the Voice, Speech and Language Service and Swallowing Center at Northwestern University Medical School/Northwestern Memorial Hospital. Dr. Logemann's research interests include the management of voice disorders, normal swallowing physiology, the assessment and treatment of speech and swallowing dysfunction in treated head and neck cancer patients and neurologically-impaired individuals, and in the development of randomized clinical trials. She has received NIH funding for her research in the area of normal swallowing physiology and speech and swallowing disorders for the past 25 years. She is a Fellow of the American Speech-Language-Hearing Association (ASHA) and the Chicago Medical Society, was President of ASHA in 1994 and 2000, and received Honors of the Association in 2003.

### **Seminar Attendance Information**

**I will attend**

**FREE Seminar only**

**FREE Seminar and reception**

**FAX Completed Form to:**

Memorial Center for Health Education

**(562) 933-0101**

**The Grand, Long Beach Event Center  
is located at**

4101 E. Willow Street  
Long Beach, CA 90815

Take the 405 from the North or South. Exit Lakewood Blvd South. The freeway will exit you directly in front of Willow St. where you will make a right hand turn. The next light you will come to is Grand Ave. where you will make another right hand turn. The building will be located on the right hand side of the street. Look for the conveniently located parking garage.

## Educational Objectives

**Upon completion of this seminar, attendees will be able to:**

1. Recognize the presence or occurrence of undiagnosed dysphagia in a senior population.
2. Complete clinical screening and diagnostic processes for dysphagia in the elderly.
3. Understand the importance of minimum standards for the Modified Barium Swallow (MBS) in assessing swallowing issues.
4. Recognize medications associated with swallowing changes.
5. Recognize the top 10 observable signs of potential swallowing problems.

### Continuing Education Credit
